

Ask Oracle APEX App - Installation Guide

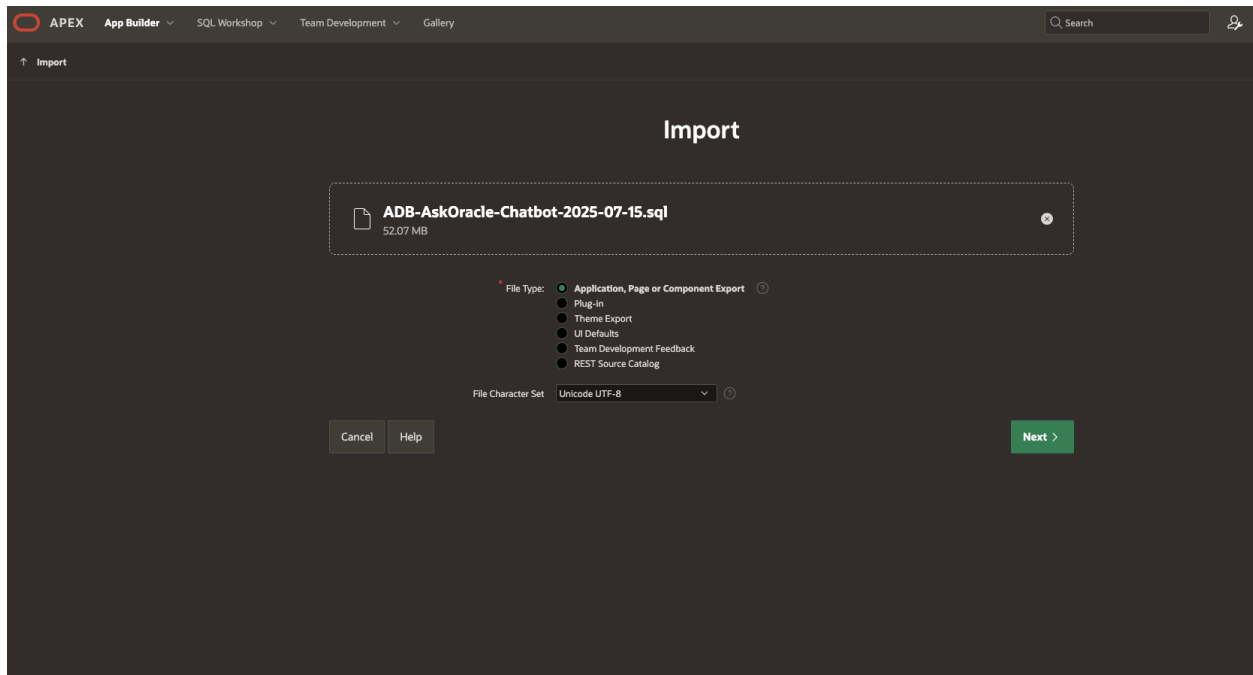

Step 1: Login to Oracle APEX Workspace

1. Open your browser and navigate to your Oracle APEX environment.
2. Enter your Workspace, Username, and Password.
3. Click Sign In to access the APEX development environment.

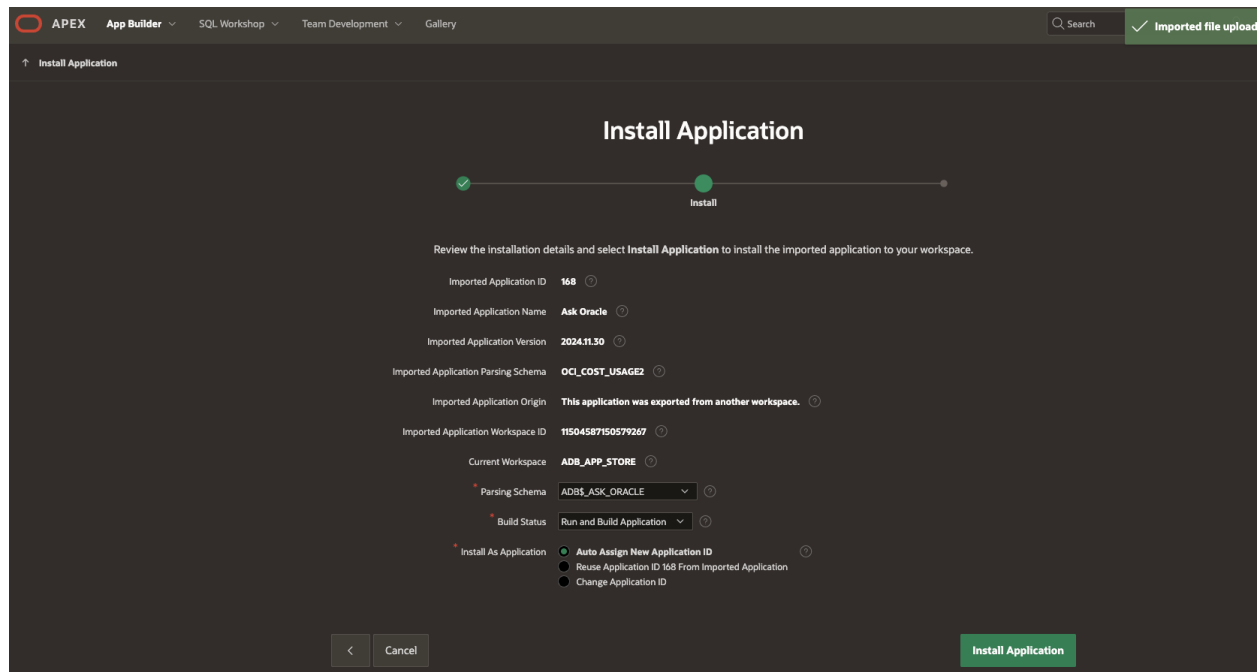

Step 2: Import the Ask Oracle App

1. From the APEX home screen, go to the App Builder.
2. Click on Import.
3. In the import wizard: - Choose the exported SQL file of the Ask Oracle app. - Click Next and follow the prompts to upload

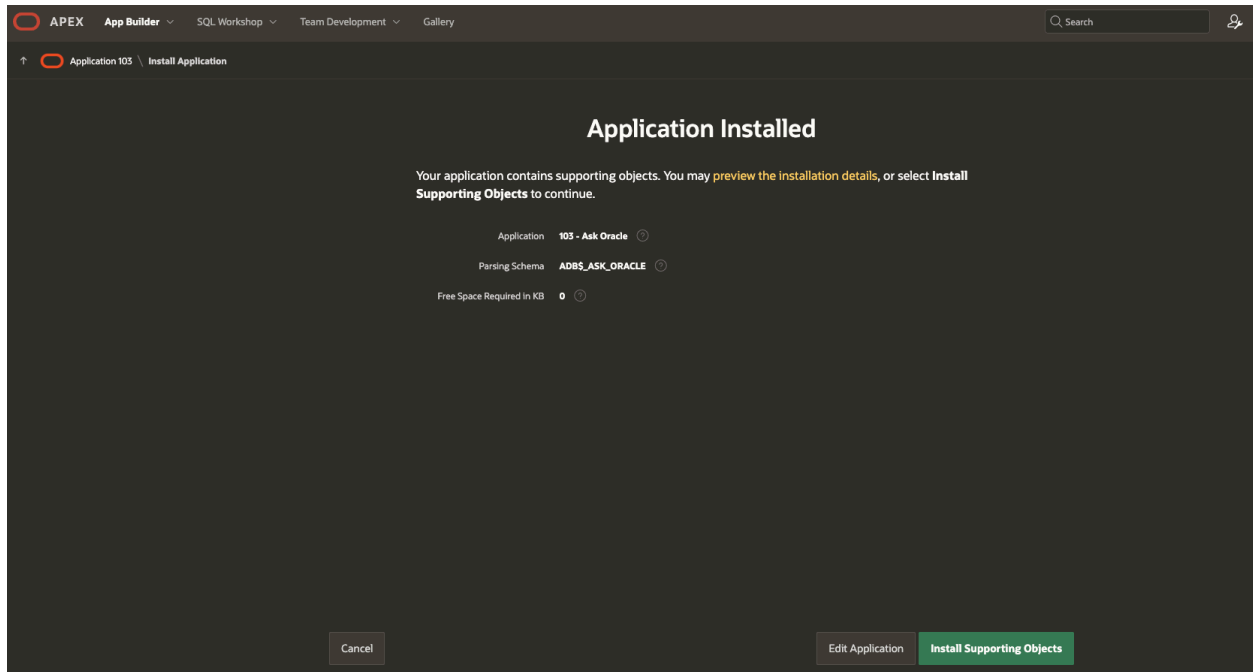

Step 3: Select Parsing Schema & Install App

1. After uploading, APEX will detect the application metadata.
2. Choose the appropriate Parsing Schema (the schema under which the app will run).
3. Click Install Application to begin.

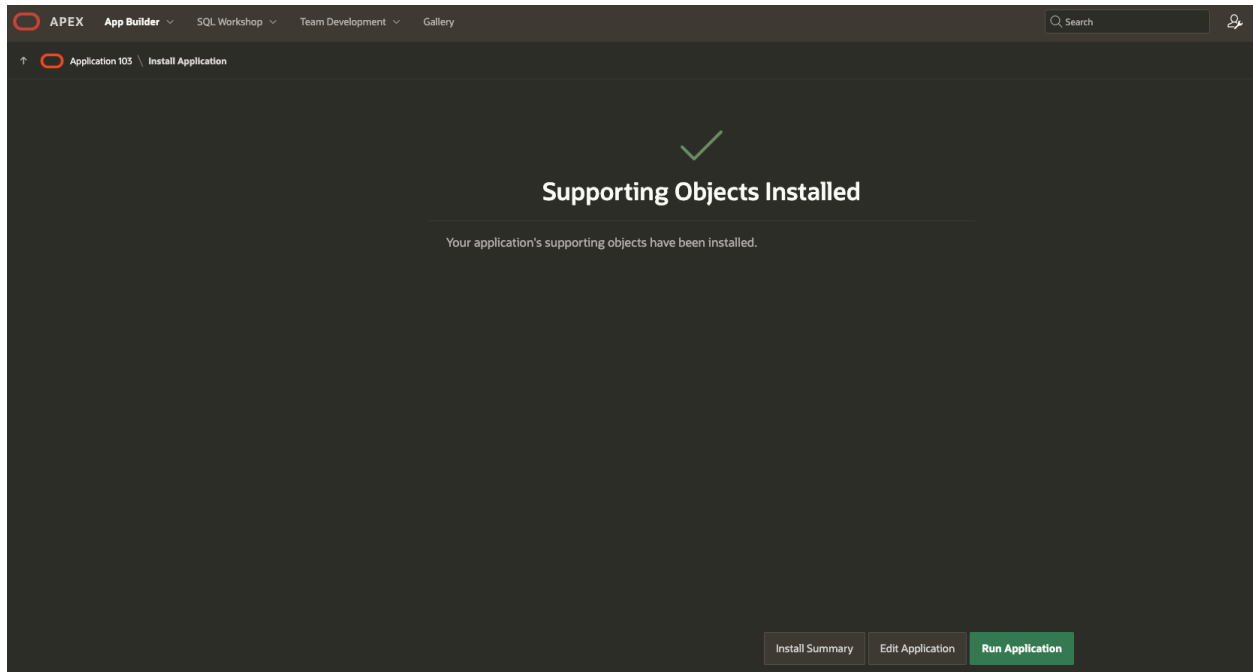

Step 4: Install Supporting Objects

1. During installation, APEX will prompt to install Supporting Objects.
2. Review the objects and click Next.
3. Click Install to proceed.

Step 5: Run the Application

1. Once installed, a success message will appear.
2. Click Run Application to launch Ask Oracle.
3. A login screen should appear.

Step 6: Login to the Ask Oracle App

1. Enter the provided application credentials.
2. You should now be inside the Ask Oracle app interface.
